

GIPPI

(Genetic Improvement Program for *Penaeus Indicus*)

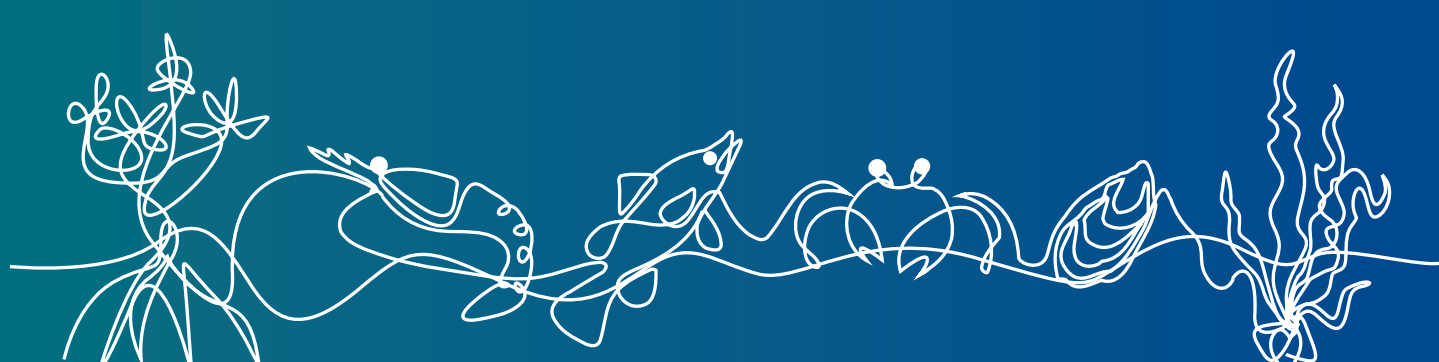

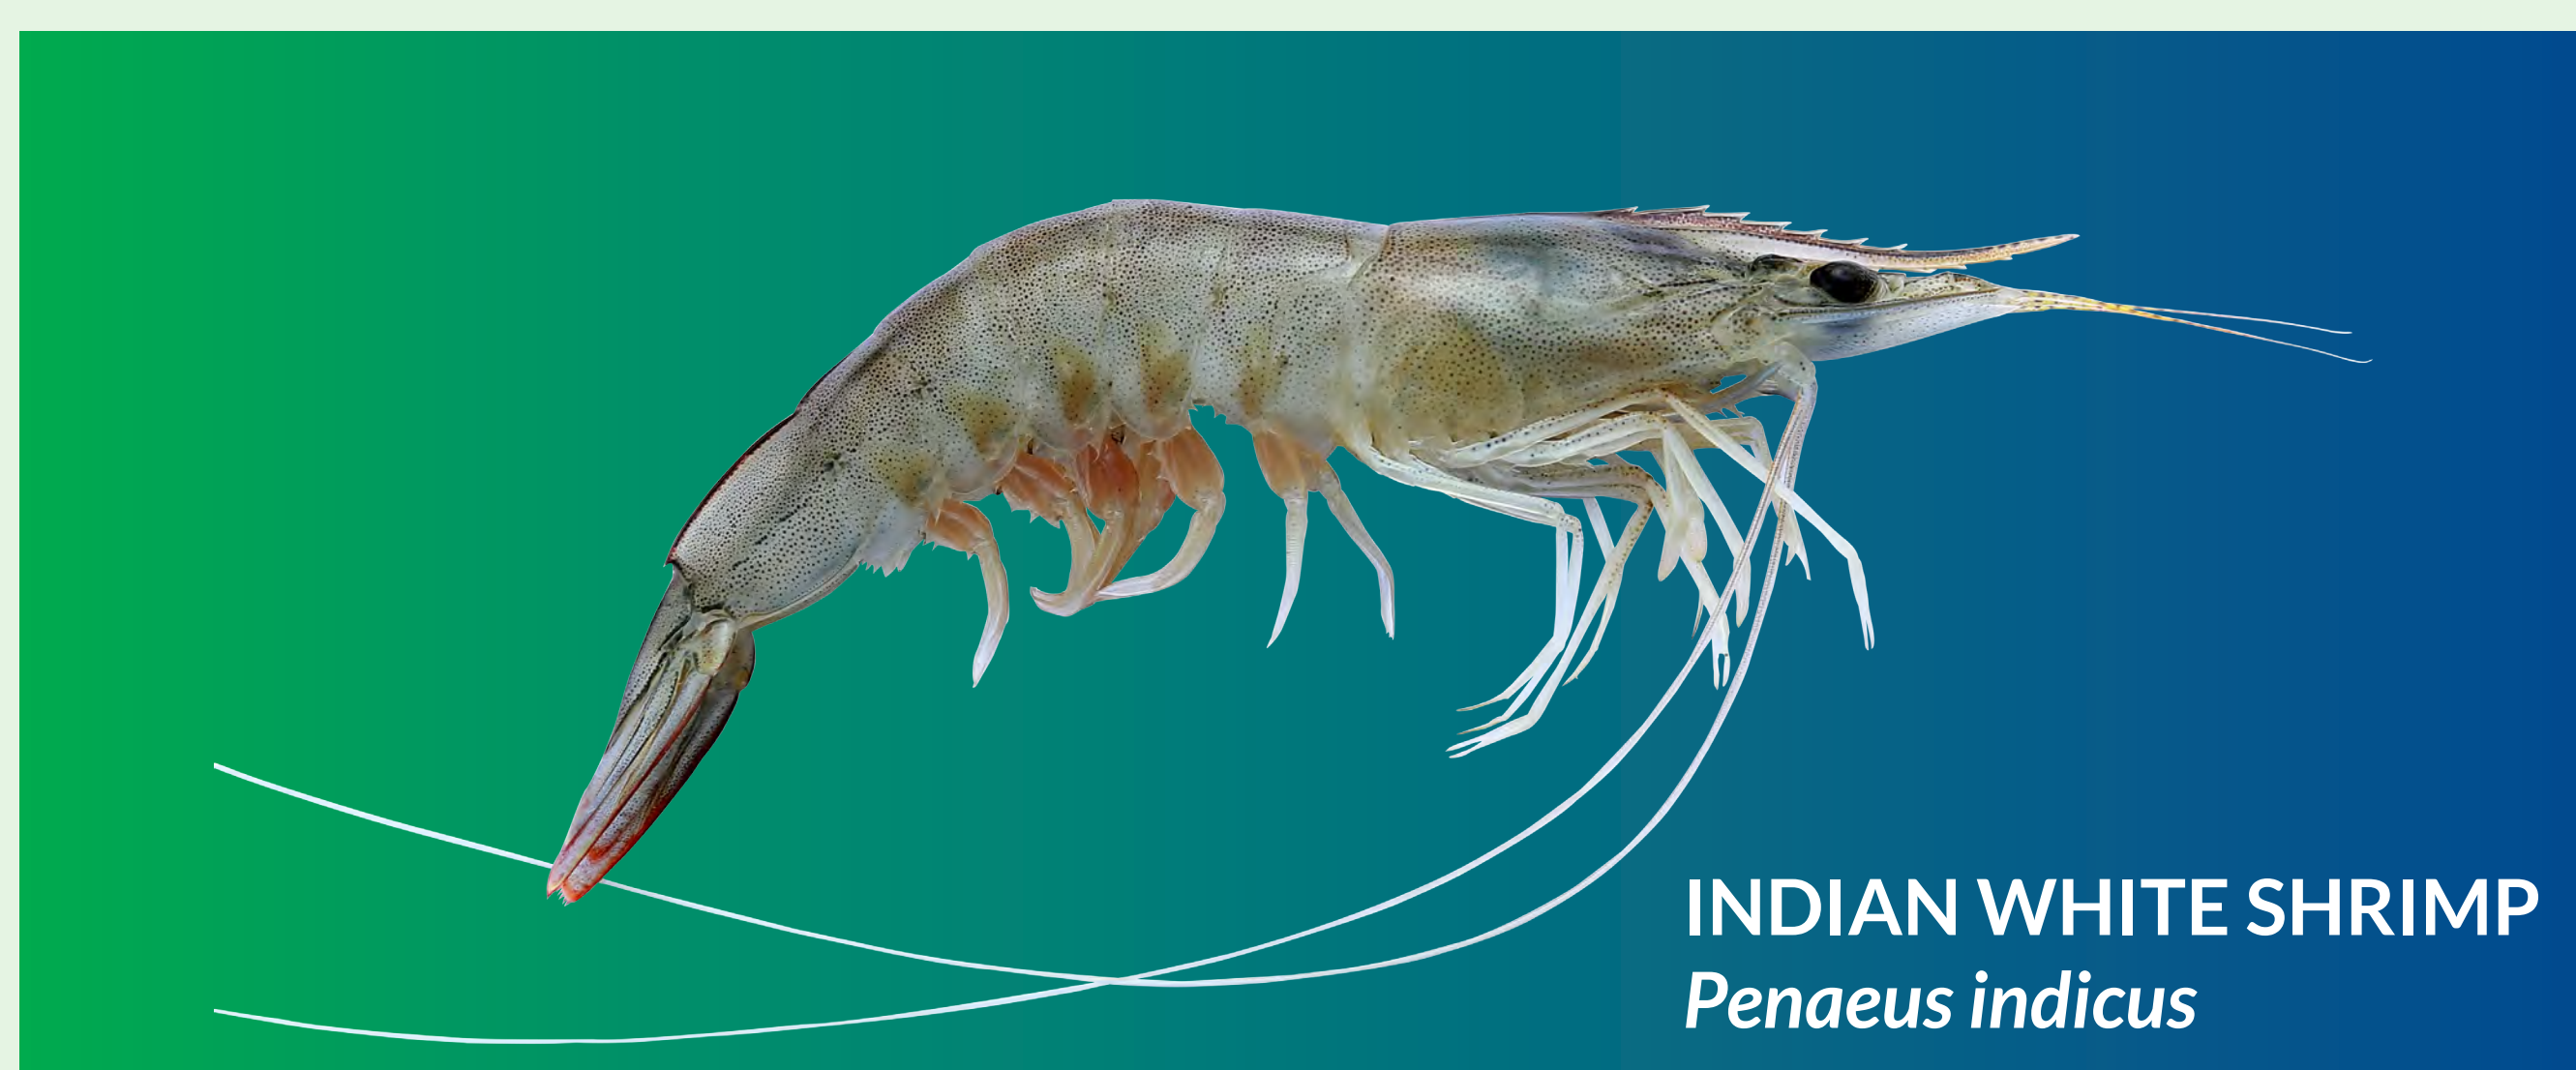

LAUNCHING OF GIPPI BY HONOURABLE MINISTER

Dependence on single exotic species of shrimp *P. vannamei* in the long run becoming counter productive with declining productivity and emerging diseases

ICAR-CIBA conducted Nation-wide demonstration to prove Indian white shrimp a formidable alternate species having a production potential of 3 to 7 tons/ha

- Genetic Improvement Program of *P. indicus*, 1st phase project was launched in Feb 2023 with funding support of PMMSY
- Genetically improved (GI) indicus will be High health and fast growing Desi penaeid shrimp
